### Description

Lemongrass is used in Ayurvedic medicine to help bring down fevers and treat infectious illnesses. Lemongrass has a faint citrus flavor that has long been used in Asian cuisine in soups, curries, teas, as well as fish, poultry, beef, and seafood. Lemongrass can act as a tonic to bodily systems as well as aid in digestion. It is quite purifying and toning to the skin and muscles and is often used in skin care products. Lemongrass revitalizes the body and mind and helps with respiratory infections. Lemongrass is quite often used in massage therapy and can promote a positive mood as well as support healthy thyroid function.
